

The Wetsuit

Of all the new boating equipment
One item stands out as the best
In providing for most of your needs
The wetsuit beats all of the rest

With tents and such no longer needed
And your other things down to a few
With food pack strapped onto your back
You don't even need a canoe

Now imagine how simple is camping
When clad in this all-purpose suit
By just slithering over to shore
And chaining your wrist to a root
